Sigumpar Barat, Kec. Sigumpar, Kab. Toba, Prov.Sumatera Utara

I'm fresh graduate with a Bachelor's degree in Information Systems from Institut Teknologi Del. I have successfully completed my thesis and developed strong skills in communication, teamwork, and individual work. My academic background has equipped me with analytical and critical thinking abilities. I am passionate about gaining more experience and knowledge to expand my horizons. I have hands-on experience in building websites, conducting user and market needs analysis, and creating targeted and effective web solutions. Additionally, I have a keen interest in data, including data analysis, visualization, and utilizing data for strategic decision-making.

Work Experiences

PT. Hagatekno Mediata Indonesia - Medan, Indonesia

Jun 2023 - Aug 2023

Web Developer Internship

Developed the PakTani Digital website using the Laravel Framework, designed to help Indonesian farmers market their produce.
